Plantronics is part of Linksys® VoIP Ecosystem

Linksys® VoIP Ecosystem provides complimentary and compatible technologies that help enable operational excellence and compatibility with solutions built using Linksys® VoIP Equipment.

Plantronics® has completed and passed interoperability testing for several headsets and adapters under the Linksys® VoIP Ecosystem.

LINKSYS®
A Division of Cisco Systems, Inc.

Why should your customer purchase a Plantronics headset?

Today, communications – via traditional phones, mobiles or Internet telephony – are at the centre of virtually every business activity. Businesses and organisations need trusted partners and suppliers for their hardware solutions that support all their business activities.

Plantronics offers:

- An unmatched track record
- Proven acoustic excellence
- Exceptional product range
- Industry leading service and support.

As the worldwide market leader and partner of major corporations such as Linksys, we spend millions of dollars every year researching and developing sound solutions that anticipate and respond to all the business needs of your customers.

Why use a headset?

Research shows that overall productivity could be increased by up to 43%* simply by using a telephone headset, rather than a traditional telephone handset.

Most of all, headsets empower the individual user by providing five key advantages:

- **Hands free** Advantage: No more juggling with your phone handset – type and talk as well as collecting that important document from the printer – complete office freedom
- **Sound** Advantage: More clarity – you can hear better and be heard. It saves time and reduces stress
- **Ergonomic** Advantage: No more cradling a handset between your shoulder and neck – you can be more comfortable and avoid strain, back and neck pain
- **Mobility** Advantage: No more being tied to your phone – you're free to move around as you talk and you will miss less calls and stop diversion to voicemail – improve customers satisfaction
- **Efficiency** Advantage: Be able to multi-task whilst managing your daily activities – your phone, mobile and PC all enable you to become more productive.

TCO '07 Certification for Headsets

Plantronics is the first manufacturer to adopt the new TCO '07 headset standard across its range of headsets worldwide starting with key models from each of its business segments.

The certification means that the headset is designed and manufactured according to some of the strictest performance and environmental criteria in the world. Certified headsets meet TCO Development's requirements on ergonomics, ecology and energy and cordless headsets also meet the requirements on emissions. Visit www.tcodevelopment.com for more details.

Complete peace of mind with industry leading warranties

All our contact centre and office products come with a standard 2 year warranty with the option, at the time of purchase, to extend to a third year warranty (corded call centre and office headsets, amplifiers and adapters only).

More information

Contact us on the telephone numbers overleaf for more information or visit www.plantronics.com. To ensure all our channel partners have access to the most current product information and sales tools, visit www.planpro.net

Additional Sales opportunities

Plantronics offer a wide range of accessories for our headset range. From handset lifter and amplifiers to coloured voice tubes and gel ear cushions. Always ensuring the best headset wearing experience.

Compatibility

The headsets listed in this guide all work with the phones listed. If your phone is not listed please visit our product finder compatibility guide at www.plantronics.com/productfinder

*Research by HB Maynard & Co.

With every Linksys phone there is a wireless and corded Plantronics headset sales opportunity!

This headset selection guide helps you determine the right headset for your Linksys telephony solution. Whether you are using a WiFi phone or deskphone or need a wireless or corded headset, this guide will help you to select the right solution for your needs.

First select the phone you are using and then determine the type of headset you want, wireless or corded. When you choose a corded headset please check the required connectors as well to make sure your headset can be connected.
